Language: English Brand New Book ***** Print on Demand *****.Excerpt from Robison s Manual of Radio Telegraphy and Telephony: For the Use of Naval Electricians This manual, first published in January, 1907, was revised in 1909 by L. W. Austin, Ph. D. The present (2d) revision contains the results of some of Dr. Austins later researches as well as more detailed instructions relative to installation, care and operation, also additional appendices, containing extracts from Service Regulations adopted at the International Wireless Telegraph Convention in Berlin, October, 1906, and the U.S. Statute of 1910, relative to wireless telegraph apparatus on merchant vessels. The author is also indebted to Mr. J.Martin, of the Navy Yard, New York; Mr. Geo. P. Hanscom, of the Navy Yard, Mare Island; Mr. Geo. H.Clark and others for figures, illustrations and suggestions. July, 1911. Preface To Third Revision Advantage has been taken of the necessity for a new edition to regroup subjects; to add articles and figures relating chiefly to the use of imdamped oscillations; to note the results of some of Dr. Austins recent researches; to alter appendices to include the London Convention...
